I always heard if you want to model you need to be super tall. Well that wasn't the case for me. I love being on stage or in front of a camera. However, I'm super short. I was born with a growth hormone deficiency and for the past two years have had to take daily injections to help me grow. The great thing is I still get to do what

I love, which is dancing and modeling. I have been so blessed to become ambassadors for a variety of different companies. There is nothing better than living your dreams and for me that is being on a stage or in front of a camera.

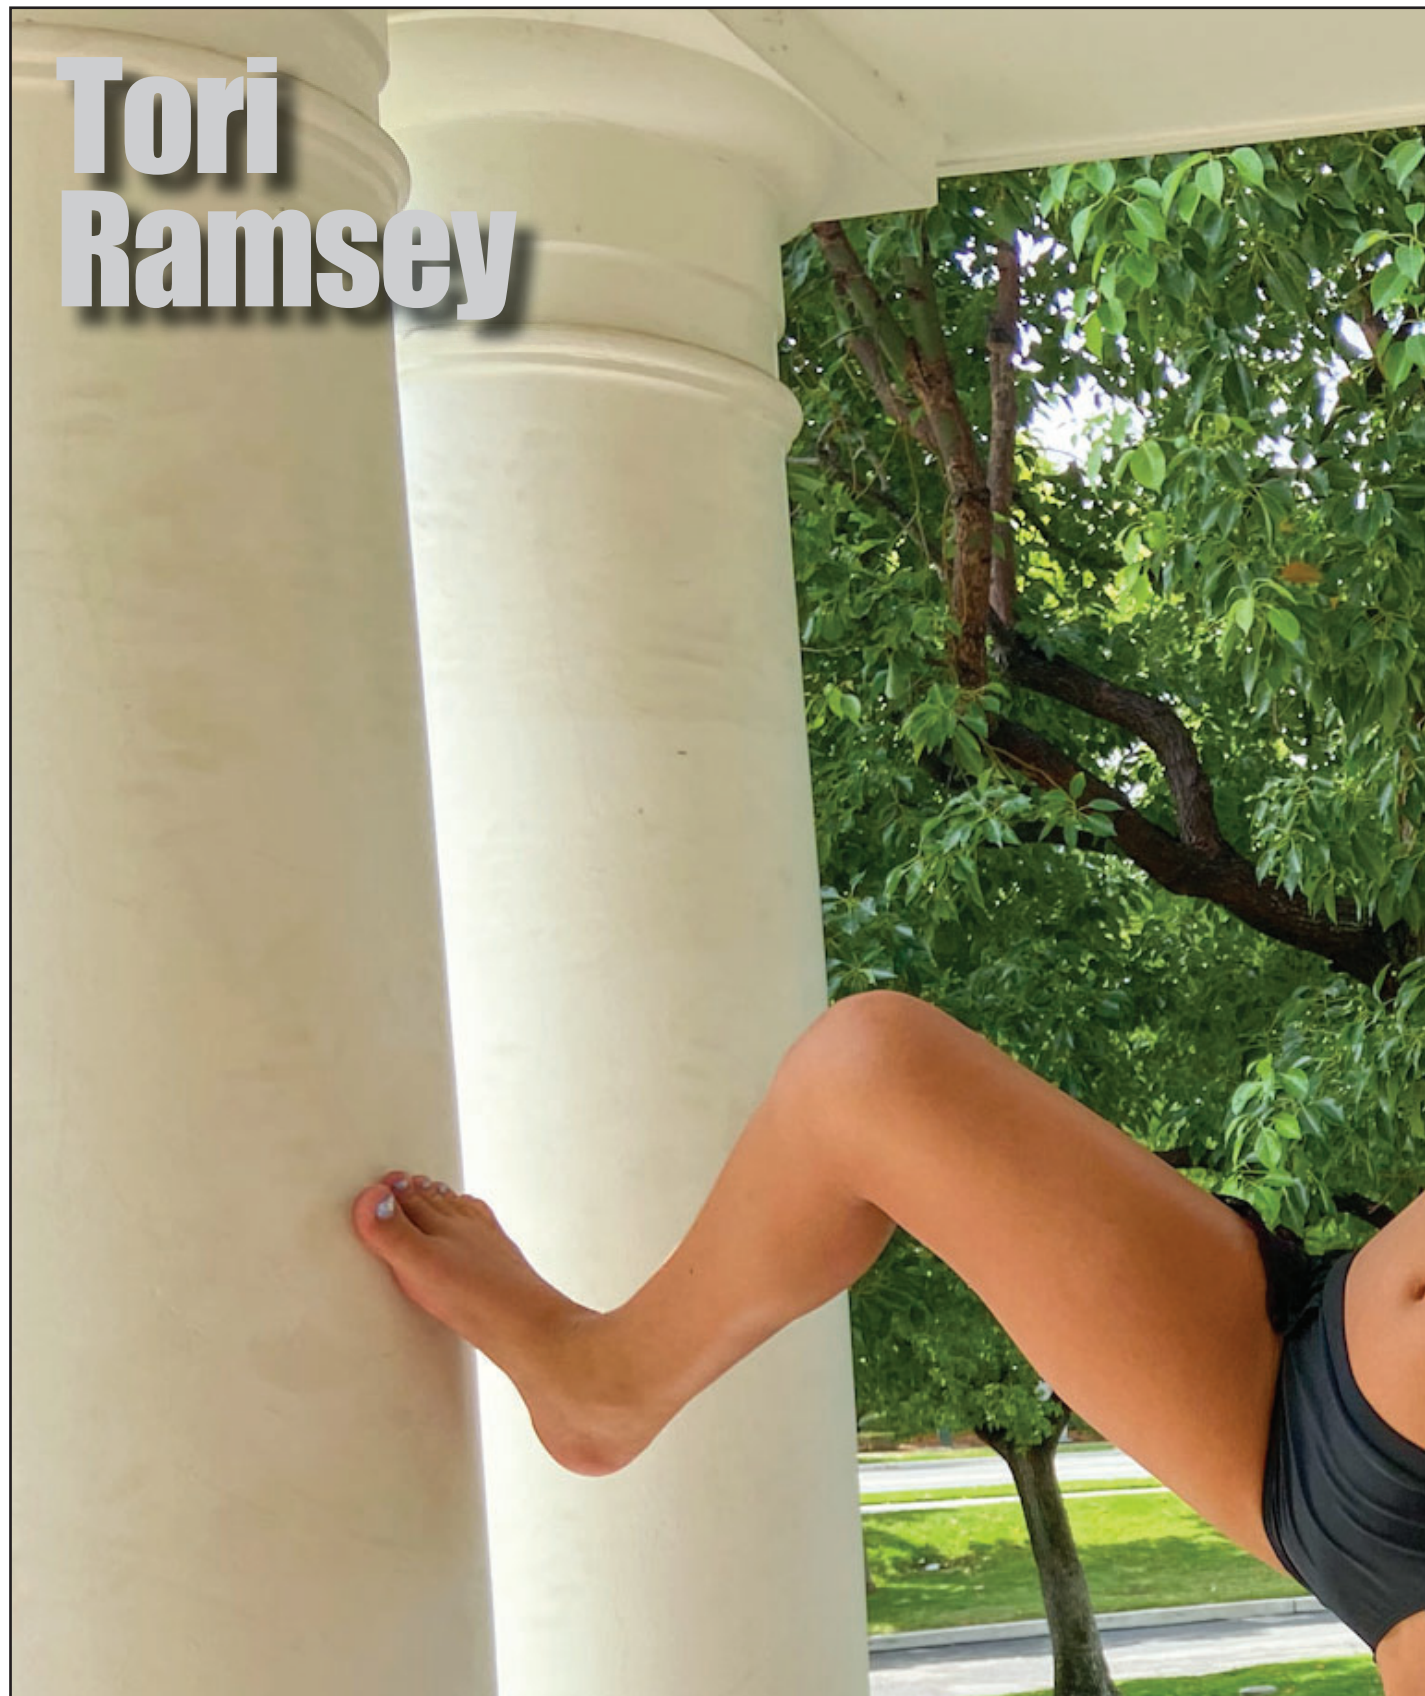

Amelia has only started modeling a few months ago, but has already been featured in a few magazines, some dancewear websites, and participated in a runway show. This beautiful 11 year old loves to model, but her true passion is dancing. She is working hard to be

a professional dancer and would like to open her own dance studio when she is older.

Charbel Kassas

Hello, my name is Charbel and I'm 16 years of age . Im still deciding on what I want to do in the future, but one of my recent interests is doing photoshoots. I only ever did one, but found it really fun. I consider it as one of my life achievements. It would be one thing that I would love to pursue. I enjoy taking pictures in different clothes and the experience with the photographer was really fun. Taking different poses was amusing and different in a good way. So one of my challenges would be to follow the path of modelingt , in my futur. Photographers Credits: Magenta Photo

Doing Commercial and Print work is fun. It definitely keeps me busy,, but my goal is to cast in a feature film one day. I have an amazing acting coach that I work with so I am definitely ready to show my skills. I also enjoy walking in fashion shows in my spare time,, I have done about 10 of those since the age of 5 and I am 9 years old now. When I'm on any set I have so much fun, even if I have to do a million takes. Music videos are very interesting to do because they are like mini movies. I've done about 6 of them. I take my work very seriously, if I get a script to memorize I work hard at it so that my audition will be memorable to the casting directors by really becoming one with the character. It's not easy trying to memorize lines and keep up with homework sometimes but luckily I have been able to manage. Being an industry kid can get a bit frustrating especially when you working so hard towards an audition and then you don't book, you just can't take it personally and keep it moving. With the support of my mom I just know that all my dreams will come true soon.
